

— Conference on

Mathematical Statistics in the Information Age

Statistical efficiency and computational tractability

Vienna, September 17 – 19, 2025

Confirmed invited speakers include

Emmanuel Candès (Stanford, USA)
Nina Dörnemann (Aarhus, Denmark)
Kengo Kato (Cornell, USA)
Dario Kieffer (Freiburg, Germany)
Jason M. Klusowski (Princeton, USA)
Georg Köstenberger (Vienna, Austria)
Guillaume Lecué (ESSEC Business School: Paris, France)
Enno Mammen (Heidelberg, Germany)
Florence Merlevède (Marne-la-Vallée: Paris, France)
Stanislav Minsker (USC: Los Angeles, USA)
Boaz Nadler (Rehovot, Israel)
Sara Van de Geer (Zurich, Switzerland)
Wei Biao Wu (Chicago, USA)
Yi Yu (Warwick, England)
Harry Zhou (Yale, USA)

The workshop is sponsored by the DFG Research Unit 5381

<https://for5381.uni-freiburg.de/en/>

Venue

[Sky Lounge](#) of the faculties of Mathematics and Business, Economics and Statistics
Oskar-Morgenstern Platz 1, 1090, Vienna

Registration

The workshop has no fees, but guests are asked to register by e-mail to
informationage.statistik@univie.ac.at until June 30-th 2025.
